## **DETAILED ACTION**

### **Priority**

1. Acknowledgment is made of applicant's claim for priority under 35 U.S.C. § 119. The certified copy has been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

### **Information Disclosure Statement**

2. Receipt is acknowledged of an Information Disclosure Statement, filed 4 August 2006, which has been placed of record in the file. An initialed, signed and dated copy of the PTO-1449 form is attached to this Office action.

### **Specification**

3. The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

### **Claim Rejections - 35 USC § 102**

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Kenney et al. (US 5,459,980).

The Kenney et al. reference discloses forming products between two webs of filter paper, cutting of the individual products, stacking of the individual products, and packaging of the products. Attention is directed to figures 2 and 3, and to col. 6. lines 52-62, and col. 8, lines 18-42.

#### **Allowable Subject Matter**

6. Claims 2-27 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### **Conclusion**

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The references listed on the attached form (PTO-892) are cited to show packaging of stacked products. All are cited as being of interest and to show the state of the prior art.
